Cathy,

As discussed. I do think it is important to have R5, R4, and possibly R10 on the line when conducting this briefing. R5 because of all the legal issues going on there, R4 in prep for Thursday's briefing, and Michael Szerlog from R10 because of the assumable waters discussion and Dave may think it curious that his fellow FACA member is not on the line. He may not but .....

You have:

- 1) The briefing paper – 404g brief DR2
- 2) Appendix 1
- 3) Appendix 2 – I have to finalize this is clarifying assumable waters as well as the exec summary of the report.
- 4) Appendix 3 (two versions) about ESA
- 5) Appendix 4 – the status of state efforts (
- 6) Appendix 5 – other state issues.

I also inserted the clean copy of John's prebrief
